

Bozeman Cyclocross Race Series

Volunteer Overview and Q&A

General

We ask the volunteers to show up to Lindley at 4:45pm for a 6pm start or 4:15 for a 5:30pm start so that we get the course set up in time. This will also allow us to get SNAFU's* sorted out before the race start. **Situation normal: all fouled up*

Course Set-up and Tear down

Please be on time!! You will receive an email earlier in the day with a course map, please screenshot on your phone for quick reference while on the course. Meet promptly at the shed next to the Lindley Center to check in with Robin, gather supplies and create a plan with the other course volunteers.

Bring a good fitting bigger size backpack to carry course supplies.

Course preparation

Once out on the course, ask racers warming up to let you know of areas in need of better marking. Send a volunteer or a racer with the proper equipment to tend the necessary area or send to the shed for necessary supplies and then out to tend the area.

Tear down

We also ask that volunteers take down the course, look for trash, and see to it that we leave the Lindley/Sunset Hills race venue cleaner than it was prior to the race. Volunteers will receive 10 points for the 1st time they volunteer. Everyone in the series is encouraged to volunteer at least once.

Course Rover

Please familiarize yourself with the course map prior to race day. Ride the course, look for hazards (critter holes, BSF piping, low tree branches, etc.). Make sure the hazards are marked and check the course to make sure that the course is clearly marked. Be the point person for any questions regarding setup and take down.

Registration/Timing

Help Jim at the registration table. Collect fees and distribute race plates. Stay with Jim from Muddy Dog Sports during the race to help with number of laps and anything else he may need.

Course Marshalls/Set-up

Help to setup the course. When the course is setup, stand at your station to cheer the racers, remind community people that a race is going on so we prevent collisions, keep racers off the forbidden pavement and direct the racers which way to go.

Bring a cowbell or noisemaker to keep things fun!
